Štěpánka Duffková, HR Director, Provident Fiancial

The women managerial elite of the Czech Republic met at the very first Women in Corporate Governance Conference, held in Prague on 20th October, 2010. This unique event was organized by CGPartners the oldest corporate governance and organizational culture consultancy in the Czech Republic and supported by British Chamber of Commerce in the Czech Republic and Prague Leadership Institute. The ambition of the conference was to allow participants to meet the very women and men who are inspiring, revitalizing and transforming business and to offer women in the CEE region perspectives of role models to motivate them to move up the career ladder to the board positions.
